

The Newport

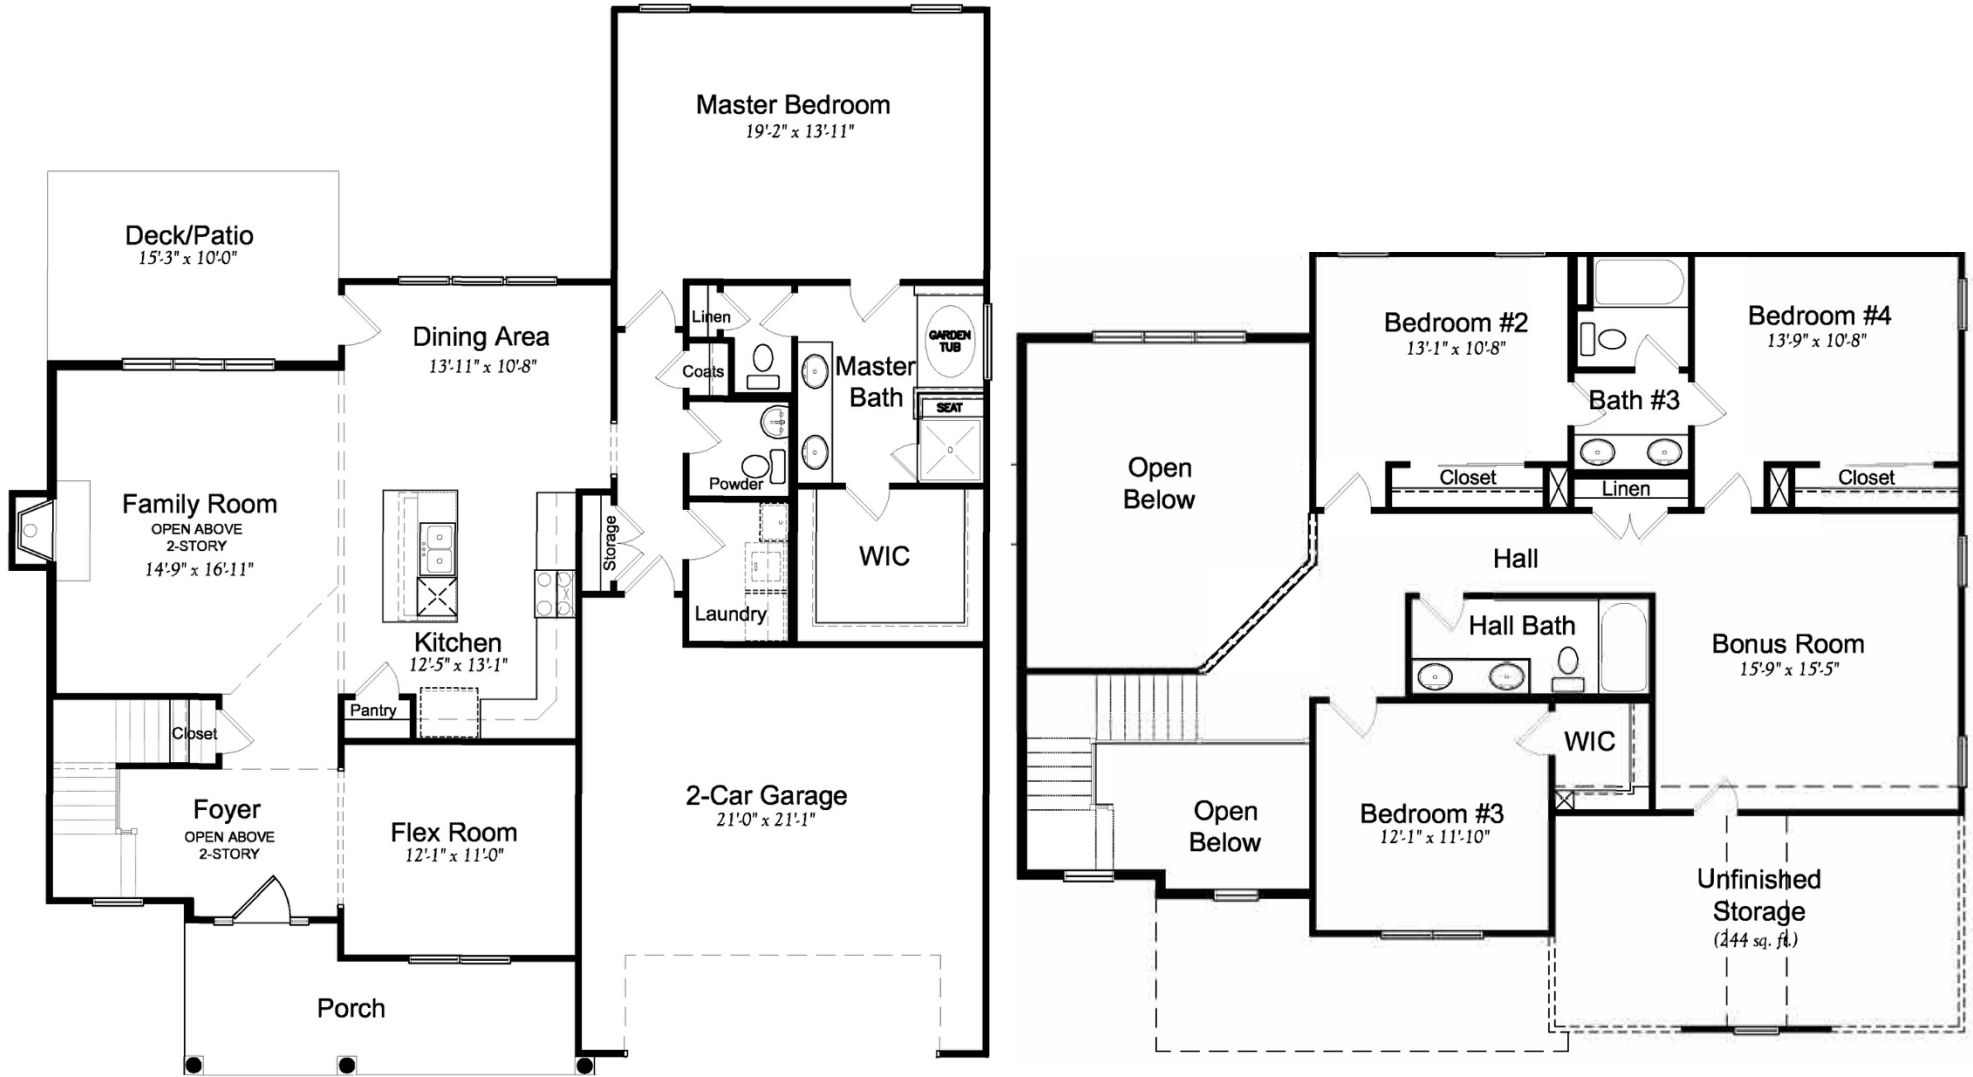

Elevation A

The Newport is a great Master-down plan with the first floor master suite tucked away for privacy. This 4-bedroom home has space for everyone with a two-story family room, large bonus room and three secondary bedrooms.

For all elevations, side and front entry garage vary by community.

The Newport

Oversized and sunny spaces make the first floor ideal for everyday living and entertaining. The flow of the Newport is so natural, that you will use all of its space from the open family room/ informal dining/kitchen to the more private flex room.
